

Call for papers for *European Journal of Hospital Pharmacy* for a special issue on Antimicrobial Resistance

European Journal of Hospital Pharmacy is seeking submissions on selected topics related to Antimicrobial Resistance for rapid, high-quality, peer-reviewed publication.

Scope

Relevant topics may include:

- Antimicrobial resistance in general – policy, strategy and operational issues
- New antimicrobials
- Antibacterials
- Antivirals
- Antifungals
- Antimicrobial stewardship
- Education and communication – what works and what doesn't
- Surveillance of antimicrobials in hospitals, audits and point-prevalence surveys

Submissions

Any of the journal's standard article types can be submitted. Instructions for authors on the different types of papers are available at <https://ejhp.bmj.com/pages/authors/>. Manuscripts should be submitted online via <http://mc.manuscriptcentral.com/ejhpharm>. Please choose the special issue title 'Antimicrobial resistance' during the submission process.

Any technical queries regarding the submission process should be directed to the Editorial Office at info.ejhp@bmj.com. Any editorial queries regarding your submission should be directed to the Guest Editor.

All contributions received will go through the journal's standard peer review process.

Deadline

Submissions must be received no later than **31st May 2021**.

Publication of the issue is expected in late 2021 or early 2022, although individual papers may be published online shortly after acceptance.

Guest Editor

This special themed issue will be edited by Jonathan Cooke, Professor at the University of Manchester and Imperial College London, UK (Jonathan.Cooke@manchester.ac.uk).
